Hotel Fanes Wellness Spa and Caveau Beautè consolidate their collaboration after years, in absolute completeness, transforming the Hotel's SPA into an "Haute Couture" creation offering an unparalleled sensory experience. Caveau Beautè has created a series of new treatment rituals entirely dedicated to the Spa, reflecting the sophistication of Hotel Fanes in every detail. The innovative anti-ageing cosmeceutical project that Caveau Beautè has created is based on the perfect interaction between patented biotechnological techniques and the skilful experience of skin care, thus creating new transdermal treatment rituals with immediate effects, preserved in the cradle of the Dolomites, a Unesco World Heritage Site. The Wellness and Beauty Route is completed in the Caveau Beautè area for the purchase of face and body products.

JETPEEL MESOJET AND RADIOFEQUENCE

The radio frequency produces heat in depth. The fibroblasts found in the dermis stimulate the collagen and elastic fibers producing a lifting effect by stretching and compacting the skin.

JetPeel™ is a new device for cosmetic resurfacing of the facial skin. It uses a new technology of a two-phase stream that creates a jet composed of gas (oxygen) and microdroplets of fluid (saline) accelerated to supersonic velocities. This jet impacts the skin, causing gentle and accurate cosmetic peeling. JetPeel™ exfoliates by painlessly removing the dead layer of the skin cells that negatively impact your skin's natural healthy glow. It penetrates, rejuvenates and oxygenates your skin by infusing oxygen into the deep dermis to recharge and revitalise these cells, improving skin texture, tone and colour. It's an all natural air and water dermal infusion, a deep serum and solution penetration without needles.

Results:

- ◆ Wrinkle improvement
- ◆ Tissue toning
- ◆ Replumping
- ◆ Greater compactness
- ◆ Shrinking action
- ◆ Eliminates acne
- ◆ Soothing
- ◆ Brightening action
