Dolomiti Wellness Hotel Fanes

The luxury you deserve

## Health, Relaxation and Wellness

The hotel has a wide wellness area of 5.000 sqm devoted to the well-being, where you can relax and escape from the daily routine and rediscover your mental health balance.

A pine sauna, salt bath, sanarium, Turkish steam bath, brine Jacuzzi, panoramic relaxation room with a vitality corner, indoor pool and outdoor brine pool and the new Elements Sauna with a panoramic view on the Dolomites await you.

In the Hotel Fanes Spa, the fusion of alpine and classic concepts of health and vitality create a unique sense of harmony and balance.

## Elements Sauna

Winner of the prestigious DNA Paris Design Awards 2023

It is a cylindrical base sauna suspended approx. 9 meters from the ground that rotates on itself and thanks to a large window gives a breathtaking view of the surrounding Dolomites.

In analogy to the 5 elements of ancient traditions: earth, air, water, fire and ether, the choice of materials with which the sauna was built inspired by the 5 elements that form nature: wood, fire, earth, metal and water.

Therefore it reflects the concept of a continuous and reciprocal interaction of these forces thus guaranteeing the natural and balanced cycle of life.

## Fanes Spa by Caveau Beauté

The partnership continues with new treatments and new products created specifically in complete synergy between Hotel Fanes Wellness Spa and Maison Caveau Beauté.

The innovative anti-age cosmeceutical project that Caveau Beauté has created is based on the perfect interaction between patented biotechnological techniques and the expert experience of skin care, thus giving life to new transdermal treatments with immediate effects.

## Sky pool

Our 25 meter panoramic pool that represents “The Fanes Pearl”.

You can enjoy an amazing panoramic view on a beautiful sunny day, comfortably lying on a sun-bed next to the pool or plunging into the warmth of the Jacuzzi.

Each Natura Loft has a spacious open space, designed to create a natural balance between traditional mountain elements and the most innovative technology. The interiors are bedecked with fine woods originated from Alta Badia. We consider the use of natural and ecosustainable materials very important for the personal wellbeing.
